

# SNAP-ON® WHEEL SERVICE AND ALIGNMENT CERTIFICATION

## BUILDING TOOLS FOR LIFE

Built on the foundation of the most trusted brand in the industry, Snap-on provides the essential **TOOLS FOR LIFE** that shape the future of tomorrow's workforce — certification programs, industry-supported curriculum and hands-on training with Snap-on products.

Wheel service and alignment are among the most in-demand specialties in the automotive industry, and many service centers lack a trained specialist on site and have to send business out to other service centers. A technician with a Snap-on Wheel Service and Alignment Certification provides a widely recognized endorsement of both expertise and achievement, becoming a valuable asset to employers.

The course has advanced lab exercises for training on equipment including balancers, changers and alignment systems, and provides the training and professionalism to ensure safety, proficiency and accuracy on the job.

### COURSE CONTENT INCLUDES:

- Equipment safety
- Hands-on lab activities
- Software navigation, setup, features
- Vehicle computer interface
- Tire changer training
- Precision wheel balancing and tire mounting for OEM and aftermarket wheels
- Cone and adapter selection
- Alignment system hardware
- Measuring primary alignment angles
- Diagnosing and correcting alignment related issues using the adjustment assistant:
  - » Pulls, tire wear, off-center steering wheel
- Advanced measurement procedures
- Advanced aftermarket adjustments

Receive an official NC3 certificate for proof of achievement providing third party stackable credentials that can offer enhanced employment potential and higher productivity on the job, in industries such as:

- Automotive Repair
